## **GROWTH, GRIT, AND WINNING: THE REAL PATH TO SALES SUCCESS**

Success in business and sales isn't about luck — it's about showing up every day ready to grow, adapt, and outwork yesterday's best. It's built on learning from setbacks, celebrating small wins, and turning bold ideas into results.

When you stay focused, keep serving your customers well, and believe in what you sell, growth and success become not just goals but a story you write every single day

## GROWING SALES IN THE DISPENSARY MARKET

Growing our presence in dispensaries means staying focused on what we do best: delivering reliable products, building trust with new partners, and showing how American Weigh Scales adds real value to their business.

By staying committed to quality, service, and strong relationships, we can keep opening doors and expanding into this exciting market together.

## THE WEIGHT OF A WHISPER

The neon sign of "Quick Weighs & More" flickered as Elias, a seller of precise pocket scales, endured another slow night. A man in a tailored suit entered, seeking a "discreet, very accurate" scale. Elias showed him a sleek, black model, explaining its hundredth-of-a-gram precision. When the man inquired about measuring "less conventional" items, Elias maintained his professional demeanor, stating, "A scale measures weight, sir. The nature of the item is up to the user. Our commitment is to accuracy and reliability."

The man paid in cash, took the small box, and departed. Elias watched him leave, knowing he sold tools of precision, not the intentions behind their use. In his quiet shop, under the hum of the lights, Elias found his own kind of balance as a purveyor of exactitude.
