## NETSUITE ENHANCEMENTS TRAINING

We're excited to share that our first NetSuite Enhancements training session has officially taken place! This marks the start of an ongoing effort to make sure everyone is confident and equipped to get the most out of our system improvements.

All training materials are now available in the NetSuite Training Library, with additional resources coming soon to Trainual for easy reference anytime you need them. These tools are designed to help streamline processes, improve efficiency, and support your daily workflow.

💡 Remember—knowledge is power! The more we learn, the stronger we grow together.

## BACK-TO-BUSINESS FOCUS

As summer winds down, we're shifting gears and setting our sights on a strong finish to the year. With exciting new products launching, new customers joining our network, and targeted marketing campaigns rolling out across social media, Meta, and Google, we're building momentum for a powerful Q4.

By aligning our efforts and staying committed to these initiatives, we can maximize results and position ourselves for continued growth. Every contribution matters—together, we'll seize these opportunities and close out 2025 stronger than ever.

## EMPLOYEE OF THE MONTH

### Congratulations Gafar Djima!

Join us in congratulating Gafar, our newest Warehouse Associate, on being named Sahni's Employee of the Month!

In just a short time with the company, Gafar has shown tremendous growth and quickly become an essential part of the team. His dedication and hard work help keep our warehouse processes running smoothly every day.

We're proud to recognize Gafar's contributions—thank you for bringing your energy and commitment to Sahni!

## BEFORE & AFTER

Before: Grandma insists you measure flour with “a pinch and a prayer.” Your cookies? Rock-solid. Your brownies? Soup. Meanwhile, your friend the jeweler is holding a shiny rock, squinting, whispering, “Yep... probably a diamond.”

After: Enter the digital scale—the quiet hero. Grandma’s cookies are chewy perfection, brownies hit just the right fudge level, and your friend can finally weigh that gem without guessing or whispering sweet nothings to it.

Accuracy wins, stress disappears, and life suddenly makes sense—one gram at a time.

## HAPPY BIRTHDAY! YOU’RE NOT GETTING OLDER, YOU’RE JUST LEVELING UP
